

I work the counter at an auto repair shop. I have to answer the phone all day long for my customers. 20% of incoming calls are unwanted cold sales calls. This is costing this country billions of \$\$\$\$. Now lets add in the election calls. I think you folks are wise enough to realize this is dragging down the economy. Please put a stop to this. The next time I hang up on one of these idiots asking for the owner/manager/any duffus who will listen, it may be one of my valued customers. I may loose my job. If you can not stop this, then you all should loose your jobs to some people who can. Do it. Do it now!!!
