This FCC appeal is made as a result of the attached USAC Denial, dated 10/23/12. The USAC Denial was for a USAC Appeal, also attached.

This appeal is for 471 865767, FRN 2358904.

In the USAC denial, it was stated that the information provided by the district did not support the RAL request and therefore the RAL was not accepted. More specifically, the support information, also attached was deemed insufficient to indicate that a clerical error was in fact made.

Our internal documentation clearly shows the clerical error. If USAC had found this evidence lacking, we could have submitted additional support but none was requested. We request that the FCC direct USAC to review this matter further as clearly a clerical error was made and the RAL should be accepted and processed.
