Certification of Channel Availability
November 2012

Roy E. Henderson wishes to substitute Channel 260A for Channel 263A at Custer, MI. This channel is presently a vacant allotment and is waiting to be auctioned in the future.

Channel 260 at Custer, MI is currently being covered by the present operation of WCUZ (FM) on Channel 261. It is proposed to relocate WCUZ to Channel 264C3. This WCUZ relocation will allow a fully-spaced Custer allocation on Channel 260A at North Latitude 43 58 15.6 and West Longitude 86 19 42.1.

A search of the FM database has been made. No other channel is currently available for the Class A substitute at Custer, MI.

These findings are certified to be accurate to the knowledge of the undersigned:

A handwritten signature in black ink, appearing to read "Clifton G. Moor". The signature is written in a cursive, flowing style.
