

Chairman Genachowski,

I'm an ASL student and I am very concerned about the lack of interest shown towards Deaf or hard-of-hearing people. It is very sad and disconcerting to see that the people who can really make a change to the Deaf community, are not doing anything to improve the quality of life of this people. I beg you to have at least a little of consideration for the Deaf community. Think of what is best for them, as well as you think what is best for you. Thank you. Liliana Valdez
