

*Rethink Interoperability*

yaknchat  
wireless

the cloud in your pocket

What's Ma Bell Afraid of

rethink the possible

rethink the vision dream

a mobile revolution is upon us

the cloud is all around us

a new wireless provider is born

LightSquared / 700 MHz.  
A spectrum together.

Google, Amazon and Microsoft all chip in to  
rethink and rebuild the next generation  
Mobile Network

everything unlimited

from any Wi-Fi device, anytime

from anywhere in the world

the mobile Internet @ 100 Mbps.

\$19. per month
