The Honorable Julius Genachowski
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: Reply Comments, Public Notice: DA 12-1863, IB Docket No. 12-340, RM-11683

Dear Chairman Genachowski:

As Policy Advisor to both former Governor Haley Barbour and former Commissioner of Agriculture Lester Spell, I have had the opportunity to meet with representatives from numerous innovative, next-generation companies interested in doing business in Mississippi. The standouts to me have always been those who can think outside the box, to offer solutions to any obstacles that might stand in their way.

I'm impressed by the innovation that LightSquared has shown in applying to the FCC for a license modification that, if granted, would allow them to walk away from the 10 MHz that has caused concern with GPS in the past. Through this action, LightSquared is demonstrating the willingness and the ability to solve problems that stand between consumers and affordable broadband.

Now, as the FCC mediates their case, I urge you to rule in LightSquared's favor. Their proposal is a solution to the problem and will bring the ability to access a broadband network to rural America.

Thanks for your consideration.

Sincerely,

Patrick Sullivan
