

Chairman Genachowski,

I am stocked that FCC will be remove VRS I will go crazy if no video phone or VRS I need video phone or VRS because better communicate with sign language and I can't afford to pay my own video phone equipment because I am disability check and I am stroke too.

Please don't remove VRS because deaf world needs video phone communicate and VRS support for interpreter relay like DR Lawyer Family Friends.

Thank you

Kerry Ivanovich Kerry Ivanovich
