Re: *CG Docket No.**03-123 and 10-51*

Office of the Secretary  
Federal Communications Commission  
Washington, DC 20554

The Commission's Secretary,

I, Elizabeth Jane Wilbur was born deaf, educated by the wonderful **world of technical qualities invented by the professionals in Washington, DC.** Now I am in eighties and live by videophone that I can reach emergency 911, relatives, friends, business, doctors, dentists, state offices as well. At present FCC plan to rid VRS for us, deaf people out in the cold lifeless bodies. Due to the law of ADA (The American Disability Act) been passed years ago stated we have the right to live according. Buying equipment from the stores has nothing to do with life video relay service far from webcam. Please be aware that webcam is only for the hearing people. VRS communication with Sorenson interpreter for the deaf is highly respectful and making the deaf worth living.

Please don't do that.

Sincerely,

Elizabeth Jane Wilbur
