FCC Mail Room

FCC Headquarters

I really would like to keep vp (videophone), it is important so I can visit with my friends, family, relatives, doctor's clinics, Emergency 911, an interpreters (Relay Service).

I need to have it now, and I don't want FCC change our equipments and Services.

I have been deaf since I was 3 years old. I need these services to take care of myself and the services from FCC, I cannot afford to pay for these benefits.

I am low income, and I can't afford to buy any equipments for videophone.

2009 ✓

Sincerely,
Sheryl Coyle
