

Chairman Genachowski,

Hello. My name is Tammy. I am writing to FCC and others included US Senators and US Representative about support VRS. I am very happy to have VRS very much as it saves my life from now on. I can communicate with all my family, my friends, new friends, business people, and 911 services. It is very important for me, deaf community and hearing world to communicate each other and for access for our reasons in the future. I see VRS that can do as improving for deaf people needs and access to hearing world for our purpose/needs. Please don't change or cut VRS at all. VRS is the best service for all of us! I support VRS 100 percents and want to thank you to all of us very much. VRS is also important for the young deaf people and deaf schools/colleges too. PLEASE SAVE MY/OUR VRS! Smile. Tammy Umaly Tammy Umaly
