The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: DA 12-1863, IB Docket No. 12-340; RM-11683

Dear Chairman Genachowski:

LightSquared moving ahead will help lead to an improved economy and that translates into jobs. There are many other pluses, but jobs are at the top of my list.

The FCC is currently reviewing a LightSquared License Modification Application. It is a well thought out approach at many different levels.

While I am not an expert in this field, even my limited review makes me a believer in what the company is proposing.

I hope that you and your colleagues will agree with me in this view. Even the great Solomon would appreciate what is being considered. This is not exactly splitting the baby, but for a broadband network it is very close. This will create jobs and not interfere with GPS.

Please approve this request. We need to employ more of our citizens and LightSquared is prepared to do just that.

Thank you.

Sincerely,

Dan Tietema-President
Organicycle
