

I am again relaxing the rules on concentrated media ownership . We run the risk of single ownership of newspaper, TV and radio station in media markets that already have minimal diversity of ownership. It is essential that corporations with enormous resources not be able to control every bit of news and information and entertainment that reaches people in any particular media market. The FCC held previous public hearings which made it clear that citizens are opposed to such concentration. We depend on you and this administration to shield us from Corporate takeovers. You must hold public hearings if you insist on going forward with this ruling. Please listen to those US Senators who have written to you in opposition.
