

Dear Commisioners:

I think there is little doubt that further consolidation of the media is contrary to the public interest. The proper functioning of any democracy requires an informed electorate. We need easier access to media for non-corporate, low-budget entities if their vital information is to reach the public. Please do the right thing. Please oppose further any and all further consolidation of the media. Please use your power to help small radio and television stations benefit from public ownership of the airwaves. Please support small publications. Thank you for restoring respectability to the FCC. Our democracy depends upon it.

Sincerely,

Mary Warner
