

I was asked to receive a collect call from Chilton County Jail. I agreed. Instead of the call being let thru I had to give a credit card # for my buddy to be allowed to speak to me. Fifteen dollars for fifteen minutes. Why could this call not just been accepted and billed to my normal phone service? This is wrong from a lot of angles. They are taking advantage of desperate, poor people. Whats wrong with a coin operated .25 phone? This is wrong.
