CC Docket No. 02-6

Request for Review of Decision of 471 awarding the Necedah School District a discount of 25% and it should have been 80%.

Billed Entity	133327
471 Application	869271
Funding Request	2375678
SPIN #	143001782
Service Start Date	7/1/2012

The School District entered data in Block 4 (four) for both the Necedah High School and the Necedah Elementary School. The data they entered should have generated a shared discount (column 15) of 80%. Instead, the data entry system generated a shared discount of 25%. The District staff does not enter the discount in Column 15, the data entry program fills in that column. The District should not be impacted by an error within the Schools and Library Data Management System.

We request that you change the approved discount on FRN 2375678. We believe it should be increased from 25% to 80%. The applicant did not create/submit incorrect data. The data entry program designed and controlled by the Schools and Library Division is responsible for completing and filling in Column 15 of Block 4. The program inserted 25% where it should have inserted 80%.

Please approve a change to an 80% discount for FRN 2375678 and make the District eligible for the full amount based on the actual student numbers. The District should not be responsible for a system error.

Please help us correct this system error.

Thank you for your attention to this matter. Please contact me if additional information is needed.

Sincerely,

Collette Schultz  
Necedah Area School District
