The Honorable Julius Genachowski, Chairman  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

**Re: Dockets 12-1863, 12-340, RM-11683**

Dear Chairman Genachowski:

I would like to express my support for the Virginia based company LightSquared and their efforts to develop a reliable mobile broadband network. Currently, their application is pending approval from the FCC. I feel that moving forward with this project will provide much needed coverage and improvement to existing broadband infrastructure that will ultimately benefit communities and businesses alike.

As founder and president of Framme Law Firm P.C., it is important for me to advocate on behalf of opportunities that will ensure that my business remains ahead of the curve and is accessible to all our clients whenever they need us. With a staff of several attorneys that work offsite, access to reliable broadband is crucial to quickly respond and meet the needs of our clients.

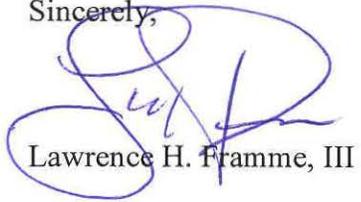

In addition, approval of LightSquared's application and development of their network will allow me to be productive and work offsite while at my second home in rural Nelson County, Virginia. As I understand it, LightSquared has set its sights on expanding mobile broadband access to rural areas, which will not only benefit residents of these areas, but in my case, business as well. I will be able to communicate easily and often with my team and clients located in Richmond, VA.

At the moment, the broadband service available to Nelson County is expensive, slow, and unreliable. It is my hope that a company like LightSquared will be able to improve and expand existing infrastructure to provide local residents with a solid choice in mobile broadband access.

I hope you take LightSquared's application into serious consideration. Access to reliable and affordable broadband should be available to everyone, no matter the location. LightSquared's commitment to providing a solid telecom infrastructure and wireless broadband innovation should not be overlooked.

Thank you for your consideration in this matter.

Sincerely,

Lawrence H. Framme, III
