

ALL A'S DEVELOPMENT

December 14, 2012

The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: DA 12-1863, IB Docket No. 12-340; RM-11683

Dear Chairman Genachowski:

I am the proud owner of a flooring company based out of Cadillac, MI. Many of my jobs are in rural areas where internet and mobile service is limited at best. It makes my job extremely challenging to coordinate between our installers, customers and the store.

As you know, LightSquared has an application for license modification pending before the Federal Communications Commission. I appreciate the opportunity to add my support for this modification.

LightSquared's application has set out an innovative approach that will allow them to proceed with their business while at the same time address the GPS issues of the past. They should be commended for finding an avenue that works at many different levels.

The most important reason why I support this application is the employment that will be generated directly by LightSquared and the other associated job opportunities. Michigan has been hard hit by unemployment. While our state may not gain the most, I am reminded of the old line "a rising tide raises all boats." I believe this is true with LightSquared.

I hope your review of this matter can move quickly and favorably.

Thank you.

Sincerely,

Mark Armstrong, President

Cc:
Senator Carl Levin
Senator Debbie Stabenow
Congressman Dave Camp
