

Chairman Genachowski,

Hey FCC!! please dont cut vrs.. I feel not fair for deaf people who cant make phone call on their own cell phone..hearing people have easy life and ease their mind to understand what the legal is..and doctors words...lawyer, court, surgeries, many other things that deaf couldnt understand the words..When use VP..they use it and understand thru interpreters than misunderstanding.. Im sure you have an ease mind using cell phone but deaf people dont!!! PLEASE DONT CUT !!! THANKS FOR LISTENING!! Kris Glennie
