

AT&T E911 PHASE II COUNTY EXCLUSION LIST

1/9/2013

EXPLANATION LEGEND

1. Stand Alone Sites: The county contains an isolated stand-alone site that preclude triangulation
2. String of Pearls: There are multiple sites located in a linear string that do not allow for triangulation
3. Terrain: The terrain, including, but not limited to mountainous areas, prevents a sufficient number of LMUs from contributing to location attempts
4. Distance: There are multiple sites but the distance between them is too great for LMUs to contribute with each other
