Re: Reply Comments to DA 12-1863, IB Docket No. 12-340, RM-11683
Public Notices for LightSquared's License Modification Application and Petition

Dear Secretary Dortch:

Thank you for the opportunity to submit comments on behalf of LightSquared and its ongoing efforts to build out a new, competitive mobile broadband network. I have recently been made aware of the company's activities and I want to urge the Commission to grant the license modification application.

As a small business owner in Kansas City, I have crews out in the field all the time working on various projects. I absolutely must be in contact with my workers and cannot afford to lose communications.

That is why I am excited about the potential of LightSquared's new network and its unique wholesale model, which prompted me to submit these reply comments.

LightSquared's request before the Commission would provide a path forward for the company to build a competitive nationwide mobile broadband network and serve the public interest (meaning small business owners like me) by injecting much needed competition, innovation and consumer choice into the wireless marketplace in the near term.

I want to urge the Commission to approve LightSquared's license modification, which will enable the company to launch its network and provide greater choices for small business owners everywhere.

Thank you for your consideration.

Sincerely,

Rosana Privitera Biondo
President
Mark One Electric, Inc.
