The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: Reply; DA 12-1863, IB Docket No. 12-340; RM-11683

Dear Chairman Genachowski:

I am writing about LightSquared's License Modification Application. I have written to you about this company's efforts before, and I have noted the Commission has received many supportive comments on LightSquared's current request. I second statements like those from the Technology Policy Institute, which said, "If LightSquared is unable to deploy its network, major economic and consumer benefits will be lost."

I am a farmer in a rural Arkansas community. Areas like mine would no-doubt benefit from what LightSquared is trying to do, and the company's proposal for sharing spectrum is an innovative step toward conserving this valuable resource.

Folks in towns like mine all over the country will see their service availability go up, and their costs go down, and it's hard to argue with that outcome. Please move quickly to make this happen.

I appreciate your time and consideration.

Sincerely,

A handwritten signature in black ink, appearing to read "C. didry R", with a long horizontal flourish extending to the right.

Sidney Robnett
