

UNITED STATES OF AMERICA
FEDERAL COMMUNICATIONS COMMISSION
WASHINGTON, DC 20554

Creation of A)
Low Power Radio Service) FCC Docket 99-25

REPLY OF DON SCHELLHARDT, ESQUIRE
TO THE PETITION FOR PARTIAL RECONSIDERATION
BY REC NETWORKS OF MARYLAND

My name is Don Schellhardt of Connecticut. Along with Nickolaus Leggett of Virginia, I was one of the first two people to propose a Low Power FM (LPFM) Radio Service to the FCC. From that moment, I have been actively involved with media reform proceedings at the Commission.

Currently, I am the attorney for LET THE CITIES IN!! and President of THE AMHERST ALLIANCE.

I am also, at the moment, busy with the battle to allow "LPFM radio stations below 50 watts" in the "urban core" areas of the Top 100 Arbitron Markets.

Therefore, my words will be uncharacteristically few:

I have read Michelle Eyre's analysis, I agree with her basic conclusions and I urge the FCC to adopt her recommendations.

Don Schellhardt, Esquire
