

Who do I complain too about an auditory contraption in the ear which I am unable to remove and a reality tv show with no privacy for my undressing or dressing which is partly employer or family?

I think this could be partly the DAR (daughters of the American Revolution) who are purportedly harassing DEMOCRATS even though I unregistered to vote in the Chicagoland area years ago.

I have no TWITTER account. I believe Ken (Kenny) Kaiser of JUDSON College at one time tried to get people to buy cell phones from him by TWITTERing the Republican Candidate of 2008. I have never TWITTERed anyone or TEXTed anyone.

The first time I realized I had a problem was during the primary for 2008 when I heard the voice of my abusive step-father (Lyle H. Snyder, Cherry Valley, IL) telling me how I was voting.

So the first time I new I had a problem was during the private voting process when I was in DuPage county and my abusive step-father was in Winnebago county.

How do I complain about this?

I have written letters to the FTC, FCC, FEC, and the local sheriffs. I have tried to get an order of protection from the DuPage county courthouse.

This has gone on too long.

I also wish you would work with the National Suicide prevention hotline to come up with a quick, easy way to determine if a shortwave radio is their bullying problem.

God Bless America!! Home of the FREE and the BRAVE!

I have the right to vote with my individual beliefs.

I have a relative in federal government maybe HOMELAND security who I have only seen for six hours with a wife who I met before they were married. I don't know if they are my problem: Kim Richeson my Mother's second brother. I hate to think my bullying problem was a official government employee. So sad who thinks they can control how you vote.

Seriously, what a sad world we live in. All this good education and the cruelty of this shortwave radio operator. So sad--I have written many letters about being tortured literally every night for over 7 years.
