Mid-Rivers Exchanges

Contested CenturyLink Blocks

Contested Census Blocks

Census Blocks

Fixed Unserviced Census Blocks According to FCC\*\*\*

fixed\_3\_768\_unavail, fixed\_3\_768\_partial\_unavail

Fixed Broadband Partially Unavailable

Fixed Broadband Unavailable (< 3 mbps down and < 768 kbps up)

Mid-Rivers Census Blocks Submitted to NTIA as of June 2012

Maximum Advertised Downstream Speed

Greater than or equal to 768 kbps and less than 1.5 mbps

Greater than or equal to 1.5 mbps and less than 3 mbps

Greater than or equal to 3 mbps and less than 6 mbps

Greater than or equal to 10 mbps and less than 25 mbps

Mid-Rivers Road Segments Submitted to NTIA as of June 2012

Maximum Advertised Downstream Speed

Greater than or equal to 768 kbps and less than 1.5 mbps

Greater than or equal to 1.5 mbps and less than 3 mbps

Greater than or equal to 3 mbps and less than 6 mbps

Greater than or equal to 10 mbps and less than 25 mbps

\*\*\* This data was obtained from the Federal Communications Commission (FCC) and was created to fulfill the requirements of the Commission's November 19 Further Notice of Proposed Rulemaking. It shows areas that are reported on the National Broadband Map as unserved by fixed broadband with advertised speeds of 3 Mbps downstream and 768 kbps upstream. The map relies on the current version of the National Broadband Map, using data as of December 31, 2011.
