The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: DA 12-1863, IB Docket No. 12-340; RM-11683 Reply Comments

Dear Chairman Genachowski:

I work for a state representative and our district covers many areas where broadband and mobile services could be better to say the least.

I am a strong supporter of expanding access to broadband services, especially at reasonable costs. Unfortunately, we are seeing a growing divide between those with access and those without access to the Internet. As that gap widens the "have nots" will face a growing problem of not being able to function as well as they could/should in our society.

By adding more companies with innovative service opportunities and cost options the gap can be lessened. LightSquared is such a company that can make great strides to address this important issue.

My request is that the Federal Communications Commission approve the LightSquared license modification application. For our society to function well we need equal access to information. LightSquared's business plan will help and I hope you will agree.

Thank you.

Sincerely,

Mike Compagnoni
