The Honorable Julius Genachowski, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: DA 12-1863, IB Docket No. 12-340; RM-11683 Reply Comments

Dear Chairman Genachowski:

I am an entrepreneur. My business varies from event planning, marketing and promotional services to name a few. The bulk of my clients are in southeast Michigan where competition is stiff. However, it's because of this competition that we are able to provide our customers with great service at a reasonable rate.

I wish to commend the FCC for the role it has played in helping to develop our nations mobile broadband network. The network has been a fantastic tool for both consumers and businesses. It has been a great help for economy creating thousands of jobs both within the industry and the businesses that have benefited with increased sales.

The FCC is currently reviewing a License Modification Application from LightSquared. The company has put forth a good plan so that they too can start helping our economy. Between the benefits of the added competition and the jobs that will be created, LightSquared's application is a wise move.

I ask that the FCC approve the LightSquared application. The sooner that they can begin to proceed with their business model the better it will be for all of us.

More competition and more jobs is a great combination.

Thank you for your time.

Sincerely,

Chris Konja
