

I am writing with respect to the community low power television stations that broadcast or are licensed to provide broadcast services to the Peoria, Illinois area. I have come to understand that the FCC may auction spectrum currently licensed to operating LPTV stations in our area. Please do not force any LPTV broadcasters off the air. Our local LPTV station must be protected. As a business person, I produce a variety of communications tools for business and industry. As a result, I am in direct contact with many who would be most opposed to this action by the FCC. I appreciate the broadcast services of our local LPTV stations. I would ask that you do not reduce the affordable services that are currently available to our community through our local independent LPTV stations. These stations have historically provided good and valued service throughout the nation and are needed. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.
