What is WebCapTel®?

A FREE service for those who have a hearing loss and prefer to use their own voice to communicate. AT&T WebCapTel users can hear what their party is saying on the phone, and read what is being said on their computer screen. All you need is a standard telephone or mobile phone, a computer or laptop, and internet connection. Don't miss out, register today!

Who can use WebCapTel?

WebCapTel is ideal for:

- Anyone who has difficulty hearing on the phone
- Late-deafened adults, and individuals with age-related hearing loss
- People who are hard of hearing
- Amplified phone users
- Existing (standard) CapTel users
- People who are deaf with understandable speech
- Someone with a cochlear implant
- Voice Carry-Over (VCO) users

AT&T WebCapTel is available 24 hours a day!

Captions are available 24 hours a day, 7 days a week from anywhere within United States, and its territories. International calls cannot be placed at this time.

Make and receive AT&T WebCapTel calls in a few easy steps:

1. Enter your Username and Password to log into your WebCapTel account at captel.att.com.
2. Enter your own call back number and the number you are trying to reach then click, "Call Now."
3. AT&T CapTel call center will call you first, then immediately connect your call.
4. You will be able to hear what the other person is saying AND see their captions on your computer screen.
5. You can end the call anytime by hanging up your phone or click, "End Call."

To receive a call: AT&T WebCapTel users must be logged into their accounts to receive incoming calls. To learn more about AT&T WebCapTel contact our customer service team or visit captel.att.com.

Emergency "911" calls

In emergency situations, if you use WebCapTel to call 911, you will be asked to provide your current emergency location. If you are unable to provide the emergency location, then we will use the address you provided during the registration process.
