AFFIDAVIT OF GARRIL PAGE

State of California

Marin County

I, Garril Page, attest that my statements are true to the best of my knowledge.

Comment round for ET Docket No. 03-137 and WT Docket No. 12-357.

1. My name is Garril Page. My address is 70 Fawn Drive, San Anselmo, CA 94960.
2. I am a dog trainer.
3. I take this opportunity to inform the FCC of my desire to change the RF Standards because the Commission's RF safety rules are inadequate: the rules are based on physics rather than biological studies. Since 1953 when the U.S. Embassy in Moscow was bombarded with microwaves at 1/100th of the current U.S. standard, no one can claim ignorance of the damaging bio-effects of RF. The publicity given resultant disabilities, disease and cancer deaths were a wake-up call impossible to ignore.
4. Every nation except Canada has understood that using thermal effects on a S.A.M. model, based on the 90th percentile of U.S. male military personnel, is ludicrous. I protest the exclusion of all other members of our population as well as the avoidance of recognition of low level EMF as a toxin.
5. The United States of America cannot afford further failure to address the consequences and bio-effects of escalating EMF, including genetic, neurological, reproductive, fetal and neo-natal studies. Technological advances come at a cost which must be weighed against benefits. The FCC has a responsibility thus far evaded.
6. I am embarrassed and ashamed for my Country's failure.

Respectfully submitted by

Garril Page
