Declaration of Michele Hertz

I, Michele Hertz, have personal knowledge of all facts set forth in this declaration and am competent to testify thereto if called upon to testify in a court of law. I hereby declare:

Comment round for ET Docket No. 03-137 and WT Docket No. 12-357.

1. My name is Michele Hertz. I reside at 62 Euclid Avenue, Hastings on Hudson, Westchester County, New York State.
2. I am an artist.
3. In February, 2010, I became suspicious that I was becoming extremely ill from the measurable radiofrequency (RF) and electromagnetic field (EMF) electrical radiation emissions from an electric automatic meter reading (AMR) digital utility (DU) meter which had been installed on my home in June, 2019.
4. In March 2010, Con Edison removed the DU meter from my home. Because of my remarkable and immediate response and relief from the worst symptoms after the removal of the DU meter, I began documenting and researching this problem.
5. I had no knowledge of RF or EMF radiation injuries before I was faced with this life threatening challenge. I can now be counted as one of the human casualties from exposure to low level radiation that is not regulated at all to protect biological life.
6. There are no current safety protections for the public and the environment, regarding RF and EMF radiation emissions.
7. I am therefore respectfully urging the FCC to develop protective, biologically sound regulations for RF and EMF radiation exposure based on updated scientific research. I would recommend the BioInitiative Report as an excellent resource for the FCC to obtain updated scientific information on the biological effects of RF and EMF radiation.
8. If the FCC is not the proper agency to regulate for health, safety and the environment, then I implore the FCC to immediately seek funding through Congress to allow the EPA to develop these potentially life-saving regulations.

9. Too much time has already gone by. The time to act is now.

10. I declare under penalty of perjury under the laws of the State of New York that the facts set forth above are true and correct to the best of my knowledge.

This declaration was executed this 6th day of February 2013 in Ulster County, New York.

Michele Hertz
