Boxford, Ma. 01921

Dear Sirs,

Excessive radiation is accumulative and is a know cause of cancer, period. Please stop the ever expanding RF radiation and electrosmog from Smart Meters which effects every cell in our bodies. Safety standards for cell phones, all wireless devices including cell towers and smart meters need to be readdressed to comply with biological standards not just based on physics and engineering.

Thank you for your attention to this important matter.

Julie Riccardi
