I, \_Nancy Richards-Marcus, attest that my statements are true to the best of my knowledge.

**Comment** round for ET Docket No. 03-137 and WT Docket No. 12-357.

1. My name is Nancy Richards-Marcus. My address is \_130 Pixley Rd Monterey Mass 01230\_\_\_\_\_.

2. I am Mental Health Clinician

3. We need rules and safety standards for electromagnetic frequency emissions. This is the undercurrent of so many of the problems on the earth, from global warming to epidemic memory loss to other serious health problems. In the past these frequencies have been used to intentionally harm people and now it is encouraged widely for commercial personal use. This is one of the most serious problems of our time and we need our tax dollars to work towards protecting us, not killing us. Consumers are exploited by commercial interests and this should not be allowed, we are paying taxes for you people to protect us and that is not happening. Please prioritize safety standards and human rights in this matter of electrosmog pollution. People should be encouraged to cut down on the use of wireless devices and warning labels are needed. It is a crime as well to put wireless devices on our homes in the form of wireless electric meters.
