Re: Request for Special Temporary Authority on Behalf of Freeconference.com,  
Inc. and Iotum Inc.; WC Docket No. 12-329

Dear Ms. Dortch:

Pursuant to Section 214 of the Communications Act, as amended, 47 U.S.C. § 214, Freeconference.com, Inc. ("Freeconference.com") and Iotum Inc. ("Iotum") (collectively "Applicants") hereby request Special Temporary Authority ("STA") for a period of sixty (60) days to allow the Applicants to consummate the transaction outlined in the underlying application (the "Application"). The Applicants request expedited consideration of this request so that service to customers will continue uninterrupted.

The Application was filed with the Federal Communications Commission ("Commission") on October 24, 2012 and supplemented on November 16, 2012. The Department of Justice filed a deferral request on December 3, 2012, noting that the Team Telecom agencies wished to review the transaction. The Commission subsequently removed the application from streamlined processing pursuant to a Public Notice issued on December 11, 2012. Team Telecom's review process is ongoing.

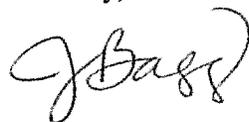

As explained in the Application, the transaction will result in 100% control and ownership of Global Conference Partners ("GCP") being transferred from Freeconference.com to Iotum, and GCP will continue to operate as a wholly-owned subsidiary of Iotum (the "Transaction"). GCP holds a domestic 214 authorization and is a non-dominant provider of teleconferencing services.

There are urgent circumstances that support this request for STA to permit consummation of the Transaction. GCP currently is operating without a full management or operations team in place. Consummation of the Transaction will allow new personnel with considerable knowledge and expertise in teleconferencing services to oversee the management and operations of GCP. The Transaction will also inject much needed capital into GCP's operations providing financial stability and efficiencies that better ensure the ongoing provision of high quality teleconferencing services to the public by GCP on a competitive basis. Failure to permit the consummation of the Transaction pending the ongoing Commission and Team Telecom review could be detrimental to customers who rely on the teleconferencing services of GCP. Accordingly, grant of the requested STA will serve the public interest because it will permit the continued provision of service without interruption to its customers while the Application is being considered.

Applicants acknowledge that grant of this STA request will not prejudice any action the Commission may take on the underlying application for consent to transfer control of GCP. Applicants further acknowledge that the STA may be revoked at any time by the Commission upon its own motion. Representatives of Team Telecom and the Department of Justice have been informed of this request and do not object.

Please contact me should you have additional questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "J. Bagg".
