Re: Modernizing the FCC Form 477 Data Program, WC Docket No. 11-10

Dear Ms. Dortch:

On February 8, 2013, Terri Hoskins, Victoria Carter Hall, Greg Wagner, Jeanine Poltronieri and the undersigned of AT&T spoke by telephone with Lisa Gelb and Travis Litman of the Wireline Competition Bureau and Jim Schlichting, Susan Singer, Nese Guendelsberger, Eliot Maenner, Mitali Shah and Michael Janson of the Wireless Bureau regarding the above-listed proceeding. The discussion encompassed potential changes under consideration for the Form 477 data collection process and their impact on providers' burden in preparation of their submissions. Potential changes discussed included:

- changing and reducing the number of speed tiers,
- providing the Commission shape files for wireless services depicting the relevant technologies, frequency bands and maximum advertised speeds,
- providing *aggregated* wireless device data reflecting the highest device speed capabilities, potentially at the county level and/or segregated by pre-paid and post-paid devices,
- reporting machine-to-machine wireless device counts *aggregated* at the national level, and
- reporting data on wireless devices which are sold as part of a bundle with wireline broadband or video services.

Pursuant to Section 1.1206 of the Commission's rules, this ex parte notice is being filed electronically for inclusion in the record of the above-referenced proceeding. Please contact me if you have any questions.

Sincerely,
