This is a public comment for the Wright Petition  
(CC Docket #96-128).

Dear Chairman Genachowski,

I wanted to let you know how unfair these high collect call fees are to our families. My family lives only 1 1/2 hours away from where I'm serving time but I have to pay \$12 to talk to them for 20 minutes. It is impossible to maintain healthy relationships with your loved ones when they are constantly discouraged to communicate with us. These barriers are not only limited to phone prices but also other avenues of communication such as mail and visits also. Thanks for taking a moment to consider what our families must be going through.

Sincerely,

Tony Griffin

Dear Mr. Genachowski, sir this is a public comment for the Wright Petition (CC Docket #96-128) and I am contacting you to inform you that as a prisoner confined in one of the countries prisons and having no alternatives available to use the phone service in an attempt to maintain strong ties to my family, friends and religious community the costs of a single call is exorbitant.

It is even more unreasonable when you compare the charges of calls placed by those who are not imprisoned against those charged to us who are incarcerated.

I wanted to be a part of the record on this very important matter and it is my hope that your committee will bring some kind of balance to the costs prisoner pay for phone services.

Thank you for your time and consideration in this matter.

Sincerely,

(s) *Jeremy McCoy*
