

Hope you're doing well. Was up around the Mebane Church recently and had a good time at the Winery there. I forgot your call sign, but you know I was always going in circles there around the cemetery. Please share the other calls for your family as I'm dumb as a post and can't recall them either. I think my own family will finally get into the hobby. Say hello to all. Thanks.

Good news. I'm going to the RARS Fest and plan to teach anyone who's interested in the hobby as well as my doctors and use a Verizon device so I only need to take medications through an injectable. www.fitbit.com Now with the help of family and friends I can watch the birds and spend my time on the environment. Going to lunch at an IHOP nearby. Thanks for getting me back into HAM radio. 73 where ever you are! Jonathan
