Re: Notice of Oral *Ex Parte* Presentation
WT Docket No. 99-87

Dear Ms. Dortch:

On February 14, 2013, representatives from Motorola Solutions, Inc. (“MSI”) met with staff from the Public Safety and Homeland Security Bureau (“PSHSB”) and the Wireless Telecommunications Bureau (“WTB”) to discuss the status of MSI’s pending request for limited waiver of the Commission’s narrowbanding requirements for VHF and UHF land mobile systems authorized under Part 90 of its rules.¹

Attending the meeting from MSI were Catherine Seidel, Chuck Powers, Al Ittner and the undersigned. Participants from the FCC were David Furth, Michael Wilhelm and Roberto Mussenden from PSHSB and Scot Stone from WTB.

The MSI waiver request seeks temporary relief from the provisions of Section 90.210(j)(10) so that manufacturers may continue limited manufacturing and marketing of VHF and UHF wideband equipment after January 1, 2013, in order to meet the equipment needs of licensees that have received extensions of the FCC’s narrowbanding schedule. During the meeting, the participants discussed the need for this relief. Alternatives to the issuance of a blanket waiver were also discussed, including ways to target relief to specific licensees in a manner that would minimize burdens on both licensees and FCC staff.

This notification is submitted in accordance with Section 1.1206 of the Commission’s rules, 47 C.F.R. § 1.1206. Please let me know if there are any questions about this submission.

¹ See Request for Limited Waiver, Motorola Solutions Inc., WT Docket No. 99-87 (submitted November 29, 2012).
