Re: Service Rules for Advanced Wireless Services in the 2000-2020 MHz and 2180-2200 MHz Bands, WT Docket No. 12-70 and 04-356 and ET Docket No. 10-142; Gamma Acquisition L.L.C., Licensee of Mobile Satellite Service, Call Sign E060430; New DBSD Satellite Services G.P., Licensee of Mobile Satellite Services, Call Sign E070272

Dear Ms. Dortch:

DISH Network Corporation (“DISH”), through its counsel, hereby elects common carrier status for the Advanced Wireless Service (“AWS-4”) licenses to be held by its subsidiary, Gamma Acquisition L.L.C. (“Gamma”), upon modification of its Ancillary Terrestrial Component license (Call Sign E060430) by the Commission.¹ DISH also elects non-common carrier status for the AWS-4 licenses to be held by its subsidiary, New DBSD Satellite Services G.P., upon modification of its Ancillary Terrestrial Component license (Call Sign E070272).

In addition, DISH is notifying the Commission that Gamma plans to modify its AWS-4 and Mobile Satellite Service licenses on or about May 1, 2013, to change the regulatory status of the licenses to non-common carrier at that time. Gamma will make the appropriate filings to effect those modifications at the appropriate time.

Please do not hesitate to contact the undersigned with any questions.

¹ See Service Rules for Advanced Wireless Services in the 2000-2020 MHz and 2180-2200 MHz Bands, WT Docket Nos. 12-70 and 04-356 and ET Docket No. 10-142, *Order of Modification*, DA 13-231 (rel. Feb. 15, 2013).
