**RE: Voxbeam Telecommunications Inc.
CPNI Certification
EB Docket No. 06-36; CY2012**

Dear Ms. Dortch:

Attached for filing is the Calendar Year 2012 CPNI Compliance Certification and Statement of CPNI Procedures and Compliance as required by 47 C.F.R. Section 64.2009 (e) submitted on behalf of Voxbeam Telecommunications Inc.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3031 or via email to sthomas@tminc.com. Thank you for your assistance in this matter.

Sincerely,

/s/Sharon Thomas

Statement of CPNI Procedures and Compliance

Voxbeam Telecommunications Inc. (“Voxbeam” or “the Company”) does not use or permit access to CPNI to market any telecommunications or non-telecommunications services and has trained its personnel that they are not to use CPNI for marketing purposes. Should Voxbeam elect to use CPNI in future marketing efforts, it will follow the applicable rules set forth in 47 CFR Subpart U, including, if necessary, the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

As set forth below, Voxbeam has processes and procedures in place to safeguard its customers’ CPNI, including call detail information, from improper use or disclosure by employees; and to discover and protect against attempts by third parties to gain unauthorized access to customer CPNI.

Voxbeam does not disclose CPNI to any agents, affiliates, joint venture partners or independent contractors, nor does it use CPNI to identify or track customers who call competing providers. The Company has a strict policy prohibiting the disclosure of CPNI to any third parties, unless required to do so by law (e.g., in response to a subpoena). The Company maintains a record of all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI pursuant to legally authorized requests.

Voxbeam has instituted procedures to safeguard the disclosure of call detail over the telephone and all employees are trained to follow these procedures. Under these procedures, the Company does not disclose CPNI over the telephone in response to a customer-initiated telephone inquiry, unless the customer can provide the call detail information that is the subject of the inquiry without the assistance of a customer service representative or the customer has previously established and is able to provide a password. Customers who wish to access call detail records via telephone create customer-selected passwords at the time they initially establish service with Voxbeam when their identity is easily authenticated. If a customer does not select a password at the time their account is created, but subsequently wishes to obtain a password in order to access their call detail information over the telephone, the Company will authenticate the customer’s identity without the use of readily available biographical information or account information. Passwords assigned do not rely on readily available biographical information or account information. If the customer either does not have a pre-established password or cannot provide the correct password, the Company will not provide call detail information over the telephone, but will instead send the requested information to the customer’s address of record.

If a customer loses or forgets their password, the Company will re-authenticate the customer’s identity by requiring the customer to send a letter on the customer’s company letterhead (the Company serves only business customers) signed by a company representative who has previously been identified as an authorized representative to obtain or discuss information regarding the company’s telephone service with Voxbeam. Voxbeam will then mail the password to the customer’s address of record.

Voxbeam notifies customers whenever a password or address of record is created or changed without revealing the changed information or sending the notification to the new account information. Specifically, Voxbeam sends a notice to the customer’s address of record informing the customer that such account changes have been made.

Voxbeam does not disclose CPNI on-line. If it elects to do so in the future, it will follow the applicable rules set forth in 47 CFR Subpart U, including the implementation of authentication procedures that do not require the use of readily available biographical information or account information and customer notification of account changes.

Voxbeam does not have any retail locations and therefore does not disclose CPNI in-store.

The Company has procedures in place to notify law enforcement in the event of a breach of customers' CPNI and to ensure that the affected customers are not notified of the breach before the time period set forth in the FCC's rules, or, if applicable, when so authorized by law enforcement.

The Company has not had any breaches of its customers' CPNI during the past year, but does have processes in place to ensure that it maintains electronic records of any breaches that are discovered and of notifications made to the USSS and the FBI, as well as to customers.

Voxbeam has not taken any actions against data brokers in the last year and did not receive any customer complaints about the unauthorized release or disclosure of CPNI in calendar year 2012.

Voxbeam has not developed any information with respect to the processes pretexters are using to attempt to access CPNI, but does take steps to protect CPNI from pretexters as described in this Statement.
