

It is an outrage that Securus Tech & Global Tel Link phone companies are allowed to charge such large fees for inmate phone calls. I have been charged \$15.00 a call by Securus and \$20.15 a call by Global Tel Link, that is for 15 minutes or less. Then you have the other companies that charge better fees, sell us their plan knowing that these companies will not accept their local numbers. This is the largest scam and rip off I have seen in years, unbelievable that FCC would allow this to go on and do nothing. This is a disgrace.
