Comment: I request your support in favor of the LPTV station owners. Please protect their property and owners rights and not allow a potential monopoly to take over the air waves that we have enjoyed to this day. Our rights are to be free and to live without suppression...that is what my family has fought for from day one in this country and I pray that you will join that fight and be victorious in your efforts. Thank you for your time.

Leon Munson

(descendant of Thomas Munson,  
signer of our first Constitution, "The Fundamental Agreement")

Comment: My name is David Burk. I appreciate the opportunity to watch free over-the-air television made available through low power television stations. My wife and I do not subscribe to satellite or cable television, and I should not be forced to pay for cable, satellite or fiber to watch TV. There are now many free TV stations available with a simple antenna. Please do not take any of those free stations away.

Comment: Our Church has been planning to broadcast our services on LPTV Station 51.1 for some time. Our church and our community will lose a great asset if this station is captured for the Spectrum Auction. Please do not do this. One of our members who owns several LPTV stations would suffer a major loss if the stations spectrum is taken. This seems so anti-American.

Pastor Kerry McDaniel

Please seek out other alternatives. Do not hurt our local communities.

Comment: My name is Colleen Jamison. I appreciate the opportunity to watch free over-the-air television made available through low power television stations. I have come to understand that the FCC may make spectrum available to be auctioned, and some LPTV broadcasters may be forced off the air. The FCC must protect our local LPTV station. There are programs that my family and I enjoy that are unavailable through other sources. Free TV is safe TV. Many Cable programs are not safe for my family to watch. Some shows we enjoy are only available to us over-the-air through my local LPTV station. I should not be forced to pay for cable, satellite or fiber to watch TV. There are now many free TV stations available with a simple antenna. Please do not take any of those free stations away. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: I suspect that this spectrum repack will force many LPTV stations off the air. These are mostly small business owners, Churches or Minority groups. They supply programming that is not available on full power stations, cable or satellite. They are the most local of all local TV stations. It concerns me that the FCC has completely ignored the fate of these small business operators.

Comment: I am writing concerning the status of our television station that broadcasts on the Flathead Indian Reservation in Northwest Montana. I believe that the FCC spectrum auction may greatly impact KSKC Public TV. We operate a Class A station with 4 LPTV translators, all within the Canadian contour. Please do not force any broadcasters off the air. KSKC-TV will celebrate its 25th year of serving the Flathead Reservation in April of this year. KSKC is owned and operated by Salish Kootenai College, a Native American 501c3 minority serving institution. I ask that you do not reduce the options to our viewers for free over-the-air television by a minority owned and operated station with a proud history of service to both Indians and non-Indians. We currently provide 3 streams of content to our viewers in digital format. One SD channel provides local public affairs, messages, issue driven programs and a native language program. The channel broadcasts over 3 hours per week of unique content not available anywhere else in America. Two of our translators and our studio transmitter link operate above channel 31. We have operated in good faith and have complied with all rules and regulations and our license should be protected to sustain a diverse and necessary service.

Comment: As a dedicated Christian living in (INSERT YOUR CITY), I am concerned about the future of the many Christian low power television broadcast stations positively influencing our nation and our hometown. Our local LPTV station must be protected. As a Christian, I am concerned that any loss of LPTV service will mean a reduction in the availability of broadcast content that brings hope and positive values to our daily life. I believe the Christian message is important because (INSERT YOUR WHY?). Most often, the cable and network television channels fail to represent my Christian values in their content. We want the future of Christian TV broadcasting to be protected because (INSERT YOUR WHY. BE RESPECTFUL AND CONCISE). Please do not permit Christian voices to be silenced through the loss of LPTV stations as a result of the planned auction or repack. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: I Bought a Digital TV Set

My name is Tim B. Tomke. The FCC forced me to purchase a new television set based on the promise of more free over-the-air channels. Do not shut down my local LPTV station. I want more free channels, not less. (PLEASE ADD ANY ADDITIONAL THOUGHTS. BE RESPECTFUL AND CONCISE). Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air. We don't want Spanish speakers . . . we want English. We'd like more white people on TV, educated, intelligent people. Instead of TV "their way" we'd like to advance civilization instead of going retro , , backward with the civilized progress we've made.

Comment: I Bought a Digital TV Set

My name is (Michael Woodbury). The FCC forced me to purchase a new television set based on the promise of more free over-the-air channels. I have been laid-off multiple times the last 3 years and was forced out of cable service because I could not afford it. Do not shut down my local LPTV station. I want more free channels, not less. The air-waves are the public's, so it would be unfair to sell off all the spectrum to for profit companies. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: I'm a Television Viewer

My name is Russell Davis and I appreciate the opportunity to watch free over-the-air television made available through low power television stations.

I have come to understand that the FCC may make spectrum available to be auctioned, and some LPTV broadcasters may be forced off the air. The FCC must protect our local LPTV station.

There are programs that my family and I enjoy that are unavailable through other sources. Free TV is safe TV. Many Cable programs are not safe for my family to watch. Some shows we enjoy are only available to us over-the-air through my local LPTV station. I should not be forced to pay for cable, satellite or fiber to watch TV. There are now many free TV stations available with a simple antenna. Please do not take any of those free stations away.

Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Also, a while back it was deemed that to watch over the air broadcast television, a digital TV or converter box was necessary in order to receive the signal(s) from local stations.

I opted for a converter box and i must say the picture quality and the additional sub-channels have been a blessing.

So I urg the FCC to keep in mind that not everyone can afford to pay for satellite or cable television. Instead the use of the local LPTV stations for news information, Christian Television, PBS, etc. is the only way some people have in order to keep abreast of local, national, and world events.

Comment: I'm a Businessman

I am writing with respect to the community low power television stations that broadcast to Chicago. I have come to understand that the FCC may auction spectrum currently licensed to operating LPTV stations in our area. Please do not force any LPTV broadcasters off the air. Our local LPTV station must be protected. As a business person, I operate an internet radio station. I appreciate the broadcast services of our local LPTV station. I would ask that you do not reduce the affordable services that are currently available to our community through our local independent LPTV station. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: Leave our free TV alone!! We have too many bureaucratic control freaks dictating their stupid policies to as it is. Go to Cuba, Russia or China and work for them. I'm sure you'd all be very happy there.

There are now many free TV stations available with a simple antenna. Please do not take any of those free stations away. Television is important to me because of my health I need to just relax sometimes more than normal. I need to have something to watch here in my home that I can watch without worrying whether it is too violent, etc. It is great to get local news and shows from our local area. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: As a dedicated Christian living in Gainesville, VA, I am concerned about the future of the many Christian low power television broadcast stations positively influencing our nation and our hometown. Our local LPTV station must be protected. As a Christian, I am concerned that any loss of LPTV service will mean a reduction in the availability of broadcast content that brings hope and positive values to our daily life. I believe the Christian message is important because these are the values upon which our nation is founded. Most often, the cable and network television channels fail to represent my Christian values in their content.

We want the future of Christian TV broadcasting to be protected because First Amendment guarantees freedom of expression - including faith and values. Please do not permit Christian voices to be silenced through the loss of LPTV stations as a result of the planned auction or repack. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.
