Comment: My name is Catherine Clark and I appreciate the opportunity to watch free over-the-air television made available through low power television stations. I have come to understand that the FCC may make spectrum available to be auctioned, and some LPTV broadcasters may be forced off the air. The FCC MUST protect our local LPTV stations. There are programs that my family and I enjoy that are unavailable through other sources. Free TV is safe TV. Many Cable programs are not safe for my family to watch. Some shows we enjoy are only available to us over-the-air through my local LPTV station. I should not be forced to pay for cable, satellite or fiber to watch TV. There are now many free TV stations available with a simple antenna. Please do not take any of those free stations away. This is just low life selling off to the highest bidder, showing just how low our government really is - bunch of pond scum low-lifes) Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air. I am getting sick and tired of dim witted government execs taking away more and more of what we depend on. Freedom is one of those things. Shame on YOU.

Comment: It would be a travesty to deny American Citizens a right to view television without the ability to pay for that privelege. Further, the almighty dollar has already made many rich beyond common sense. Our freedoms are gradually being denied us now. I see this as just another step in that direction. We have the right to view local news and weather, receive important alerts and so on unhindered by the urgings of private enterprises with greed as their creed. Please reconsider and deny these auctions for the sake of US Citizens.

Comment: To whom it May Concern,

My name is Steven Klein.

I actively watch free over-the-air television made available through low power television stations in the Dallas Ft worth area. Now I have come to understand that the FCC may make spectrum available to be auctioned, and some LPTV broadcasters may be forced off the air.. The FCC must protect our local LPTV stations. Some shows we enjoy are only available to us over-the-air through my local LPTV station. I should not be forced to pay for cable, satellite or fiber to watch TV. There are now many free TV stations available with a simple antenna: Many of which provide free foreign language programming to the international/immigrant members of my community. Please do not take any of those free stations away, as I have greatly enjoyed the free alternative they offer in our area.

Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Best Regards,
Steve Klein

Comment: Firstly, I believe that there has been insufficient research into the damage of reducing the number of TV stations has on the basic right of every person in the United States to freedom of speech. Replacing multiple voices from groups like LPTV with one monopolized broadband company is a direction a truly democratic society should not take. Selling "frequencies" is like selling actual property of the United States. If frequencies could be visualized maybe they would not be sold so easily, take for instance a mountain range, would we sell the Blue ridge mountains to China, if it would help pay off our debt? Broadcasters do not own the frequencies, they are loaned to them. If they do not meet the necessary rules set by the FCC then they can be taken away, selling frequencies to monopolized wireless organizations, which most are owned by foreign entities, means they are sold for ever. People have to realize that we are selling our children's and grand children's heritage. I am sure we will regret very much the day when we switch off 20 TV stations in order that we can have one foreign owned media mogul tell us there view of the world's events. A democratic society should not be looking to reduce the voices that can be heard, but increase them. Removing LPTV stations, translators and any TV stations for a short term financial benefit maybe a small step away from democracy, but nevertheless with that choice the direction of the next step has been chosen.

Comment: My name is Caleb Weiss and I am with ARCJ, LLC. As a citizen involved in my community, I appreciate the opportunities that our local low power television station offers. The loss of any one of our LPTV stations would result in the silencing of our local citizens. Simple economics of supply and demand indicate it would be unfair to our local community because the cost of advertising will increase, the availability of free or inexpensive airtime time will decrease, and we will cease to be local. The loss of LPTV stations will penalize small local businesses and program producers who enjoy the service of local LPTV stations. Protect LPTV. If the FCC moves forward with the plan to Auction Spectrum the current channels that my company sub leases from a local LPTV operator will no longer be available. The ministry that I created to broadcast the Bible 24/7 to my community while supporting local churches and businesses will be eliminated and the opportunities to purchase airtime elsewhere will become even more limited. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: My name is Jennifer Weiss. The FCC forced my family to purchase a new television set based on the promise of more free over-the-air channels. Do not shut down my local LPTV station. I want more free channels, not less. As a mother of 3 impressionable children I feel that one of the few safe places for them to watch TV is often the Independent and religious TV stations. If you eliminate these channels, you will eliminate programming that represents my family's values! Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: I'm a Church Attendee

As a dedicated Christian living in (LaPorte, Indiana), I am concerned about the future of the many Christian low power television broadcast stations positively influencing our nation and our hometown. Our local LPTV station must be protected. As a Christian, I am concerned that any loss of LPTV service will mean a reduction in the availability of broadcast content that brings hope and positive values to our daily life. I believe the Christian message is important because (INSERT YOUR WHY?). Most often, the cable and network television channels fail to represent my Christian values in their content. We want the future of Christian TV broadcasting to be protected because (INSERT YOUR WHY. BE RESPECTFUL AND CONCISE). Please do not permit Christian voices to be silenced through the loss of LPTV stations as a result of the planned auction or repack. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Our local LPTV station must be protected. As a Christian, I am concerned that any loss of LPTV service will mean a reduction in the availability of broadcast content that brings hope and positive values to our daily life. I believe the Christian message is important because (The world needs more teachings of God!We need to keep our children educated about God as there growing up and going through life.). Most often, the cable and network television channels fail to represent my Christian values in their content. We want the future of Christian TV broadcasting to be protected because (we as people need to have these programs to help us in the scope of life.). Please do not permit Christian voices to be silenced through the loss of LPTV stations as a result of the planned auction or repack. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: As a dedicated Christian living in Canyon, Texas, I am concerned about the future of the many Christian low power television broadcast stations positively influencing our nation and our hometown. Our local LPTV station must be protected. As a Christian, I am concerned that any loss of LPTV service will mean a reduction in the availability of broadcast content that brings hope and positive values to our daily life. I believe the Christian message is important because many low-income, disabled, elderly people who cannot afford satellite or cable and/or cannot get out to go to church would not be served. Most often, the cable and network television channels fail to represent my Christian values in their content. We want the future of Christian TV broadcasting to be protected because it is a freedom that should be protected. Please do not permit Christian voices to be silenced through the loss of LPTV stations as a result of the planned auction or repack. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: My name is Abigail Conly. I appreciate the opportunity to watch free over-the-air television made available through low power television stations. I have come to understand that the FCC may make spectrum available to be auctioned, and some LPTV broadcasters may be forced off the air. The FCC must protect our local LPTV station. There are programs that my family and I enjoy that are unavailable through other sources. Free TV is safe TV. Many Cable programs are not safe for my family to watch. Some shows we enjoy are only available to us over-the-air through my local LPTV station. I should not be forced to pay for cable, satellite or fiber to watch TV. There are now many free TV stations available with a simple antenna. Please do not take any of those free stations away. Without them I have no access to the news, weather, or programs we have liked for years. We are a low income family and we cannot afford to pay for TV one of the few things that we have been able to count on all our lives. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: As a dedicated Christian living in Arlington, Texas, I am concerned about the future of the many Christian low power television broadcast stations positively influencing our nation and my hometown. I have come to understand that the FCC may auction spectrum currently licensed to operating LPTV stations in my area. Our local LPTV station must be protected. As a Christian, I am concerned that any loss of LPTV service will mean a reduction in the availability of broadcast content that brings hope and positive values to our daily life. I believe the Christian message is important because it is a message of grace, peace and hope to all people. It is also a message encouraging good, moral behavior and good will toward all men. Most often, the cable and network television channels fail to represent my Christian values in their content. I want the future of Christian TV broadcasting to be protected because I sense that its elimination would create a vacuum and be destructive to the diversity of thought that is now available. Please do not permit Christian voices to be silenced through the loss of LPTV stations as a result of the planned auction or repack. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: I'm a committed Christian who lives in Sewickley, PA, and I am concerned about the future of Christian low power television broadcast stations that positively influence our country and our town. Local LPTV stations must be protected. I believe the loss of LPTV service will mean a reduction in the availability of broadcast content that brings hope and positive values to our lives. In particular, I believe the Christian message is important because it is a message of Good News for needy people. As a rule, the cable and network channels frequently fail to represent my Christian values. We want the future of Christian TV broadcasting to be protected because to give this voice an opportunity to be heard. Please do not permit Christian voices to be silenced through the loss of LPTV stations as a result of auction or repack to big media companies and monopolies. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

In addition, the FCC forced me to purchase a new television set based on the promise of more free over-the-air channels. Please do not shut down local LPTV stations. I want more free channels, not less. That's why we bought our digital converter box for free over the air local programs.

Thank you for your interest in my opinion.

Comment: I am a dedicated Christian living in Arlington, Texas. I am concerned about the future of the many Christian low power television broadcast stations positively influencing our nation and our hometown. I understand that the FCC may auction spectrum currently licensed to operating LPTV stations in the Dallas/Ft. Worth area. Our local LPTV stations must be protected. As a Christian, I am concerned that any loss of LPTV service will mean a reduction in the availability of broadcast content that brings hope, diversity, and positive values to our daily life. As a grandmother of 16 grandchildren, I believe the Christian message is important because it advocates compassion, mercy, forgiveness and reconciliation to a culture so in need on those values. Most often, the cable and network television channels fail to represent my Christian values in their content. We want the future of Christian TV broadcasting to be protected because it is needed to balance the otherwise totally secular content of cable and network TV. Please do not permit Christian voices to be silenced through the loss of LPTV stations as a result of the planned auction or repack. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air. With so much recent talk about the need for diversity, it would be a shame to silence this important voice in the conversation.

Comment: My name is Deborah Bratcher and I feel that the FCC forced me to purchase a new television set based on the PROMISE OF MORE FREE OVER-THE-AIR CHANNELS, NOT LESS! PLEASE DO NOT shut down my local LPTV station. I want MORE free channels, not less. Not all of us are fans of the various "Cable" stations & options, and we shouldn't be forced to move to that expensive and otherwise unwanted option. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air - as is their right and for their benefit and ours. It's quite disturbing how the government seems to think that SOME companies being given advantages to make more profits is somehow acceptable, even when it absolutely rejects, recalls, or denies other companies the right to continue in their already legal, licensed business. Being stripped of their right to own their own businesses doesn't reflect well on America - PLEASE do NOT shut down these LPTV stations and put their bandwidths up for auction- It's WRONG & UN-AMERICAN. Thank you in advance for truly considering your American citizens' rights and opinions and needs.

Some shows we enjoy are only available to us over-the-air through my local LPTV station. I should not be forced to pay for cable, satellite or fiber to watch TV. There are now many free TV stations available with a simple antenna. Please do not take any of those free stations away. Free TV is a great embodiment of our right to freedom of speech. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air. Thank you.

Comment: I'm a Church Attendee

As a dedicated Christian living in (INSERT YOUR CITY), I am concerned about the future of the many Christian low power television broadcast stations positively influencing our nation and our hometown. Our local LPTV station must be protected. As a Christian, I am concerned that any loss of LPTV service will mean a reduction in the availability of broadcast content that brings hope and positive values to our daily life. I believe the Christian message is important because (INSERT YOUR WHY?). Most often, the cable and network television channels fail to represent my Christian values in their content. We want the future of Christian TV broadcasting to be protected because (INSERT YOUR WHY. BE RESPECTFUL AND CONCISE). Please do not permit Christian voices to be silenced through the loss of LPTV stations as a result of the planned auction or repack. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.

Comment: My name is Denny Davis. I appreciate the opportunity to watch free over-the-air television made available through low power television stations. I understand that the FCC may make spectrum available to be auctioned, and some LPTV broadcasters may be forced off the air. The FCC must protect local LPTV station. I cannot afford to pay for cable, satellite or fiber to watch TV. There are now many free TV stations available with my indoor antenna. Please do not take any of those free stations away. As I get older and less able to participate in other activities my TV becomes more important. Low-power TV stations that have operated in good faith and have complied with their license should be protected and kept on the air.
