

We need to stop these corporations from buying-up TV networks and newspapers! It is stifling freedom of speech and JUSTICE! These monopoly corporations are basically controlling what the American public sees as NEWS. It's just as bad as "state-run media" that the U.S. government criticizes other countries (such as Iran, Syria, North Korea, China, Saddam's Iraq, etc.) for doing. It has already been shown that a corporation (for example, G.E.) has tried to use their media companies to deflect their own wrongdoings by either omission of reporting it or using propaganda to make excuses for it.
