

WT Docket No. 01-289, FCC 13-2. – OPPOSITION COMMENT

This comment is in regards to the pending docket item ABOVE, in regards to the Federal Communication Commission's plan to prohibit the certification, manufacture, importation, sale, or use of 121.5 MHz ELTs—effectively forcing pilots to switch to 406 MHz ELTs.

I fully oppose implementation of the FCC's plan, contained in the above docket.
