

GTL makes it impossible for the family of inmates to keep their loved ones informed of their family life. They place such a financial burden on them by controlling the telephone service. I am not a criminal but I am treated like one. A fifteen minute phone call costs \$25. I applied for reduced costs through a call forwarding company but GTL blocks all calls that do go directly through them. Since I am the one paying for the calls, I should be able to buy any service I choose. It is not my fault my loved one is incarcerated nor that I live 3 hrs away nor that I am his only contact person. I should have a choice to use any phone service I choose since I am the one paying the bill.
