PETITION: For ETC status and/or clarification regarding the jurisdiction of the Commission to grant ETC status to wireless carriers.

DOCKET U-4400

ORDER

BY THE COMMISSION:

In a joint pleading submitted on September 11, 2001, Pine Belt Cellular, Inc. and Pine Belt PCS, Inc. (collectively referred to as "Pine Belt") each notified the Commission of their desire to be designated as universal service eligible telecommunications carriers ("ETCs") for purposes of providing wireless ETC service in certain of the non-rural Alabama wireline service territories of BellSouth Telecommunications, Inc. ("BellSouth") and Verizon South, Inc. ("Verizon"). The Pine Belt companies noted their affiliation with Pine Belt Telephone Company, a provider of wireline telephone service in rural Alabama, but clarified that they exclusively provide cellular telecommunications and personal communications (collectively referred to as "CMRS" or "wireless") services in their respective service areas in Alabama in accordance with licenses granted by the Federal Communications Commission ("FCC"). The pivotal issue raised in the joint pleading of Pine Belt companies is whether the Commission will assert jurisdiction in this matter given the wireless status of the Pine Belt companies.

As noted in the filing of the Pine Belt companies, state Commissions have primary responsibility for the designation of eligible telecommunications carriers in their respective jurisdictions for universal service purposes pursuant to 47 USC §214(e). The Commission indeed established guidelines and requirements for attaining ETC status in this jurisdiction pursuant to notice issued on October 31, 1997.

For carriers not subject to state jurisdiction, however, §214(e)(6) of the Telecommunications Act of 1996 provides that the FCC shall, upon request, designate such carriers as ETCs in non-rural
service territories if said carriers meet the requirements of §214(e)(1). In an FCC Public Notice released December 29, 1997 (FCC 97-419) entitled "Procedures for FCC designation of Eligible Telecommunications Carriers pursuant to §214(e)(6) of the Telecommunications Act", the FCC required each applicant seeking ETC designation from the FCC to provide, among other things, "a certification and brief statement of supporting facts demonstrating that the Petitioner is not subject to the jurisdiction of a state Commission."

The Pine Belt companies enclosed with their joint pleading completed ETC application forms as developed by the Commission. In the event the Commission determines that it does not have jurisdiction to act on the Pine Belt request for ETC status, however, the Pine Belt companies seek an affirmative written statement from the Commission indicating that the Commission lacks jurisdiction to grant them ETC status as wireless carriers.

The issue concerning the APSC's jurisdiction over providers of cellular services, broadband personal communications services, and commercial mobile radio services is one that was rather recently addressed by the Commission. The Commission indeed issued a Declaratory Ruling on March 2, 2000, in Docket 26414 which concluded that as the result of certain amendments to the Code of Alabama, 1975 §40-21-120(2) and (1)(a) effectuated in June of 1999, the APSC has no authority to regulate, in any respect, cellular services, broadband personal communications services and commercial mobile radio services in Alabama. Given the aforementioned conclusions by the Commission, it seems rather clear that the Commission has no jurisdiction to take action on the Application of the Pine Belt companies for ETC status in this jurisdiction. The Pine Belt companies and all other wireless providers seeking ETC status should pursue their ETC designation request with the FCC as provided by 47 USC §214(e)(6).

IT IS, THEREFORE, ORDERED BY THE COMMISSION, That the Commission's jurisdiction to grant Eligible Telecommunications Carrier status for universal service purposes does not extend to providers of cellular services, broadband personal communications services, and commercial mobile radio services. Providers of such services seeking Eligible Telecommunications Carrier status should accordingly pursue their requests through the Federal Communications Commission.

IT IS FURTHER ORDERED, That this Order shall be effective as of the date hereof.

DONE at Montgomery, Alabama, this 12th day of March, 2002.

ALABAMA PUBLIC SERVICE COMMISSION

Jim Sullivan, President
Jan Cook, Commissioner

George C. Wallace, Jr., Commissioner

Re: Request for Letter Clarifying Jurisdiction Over Wireless CETC Petitions

Dear Mr. Steinhart:

The Department of Public Utility Control (Department) acknowledges receipt of your July 23, 2010 letter filed on behalf of i-wireless, LLC (i-wireless) seeking clarification as to whether the Department asserts jurisdiction to designate competitive eligible telecommunications carriers (CETC) in Connecticut. According to your letter, i-wireless seeks designation as a CETC in Connecticut and believes that the Department does not assert jurisdiction to designate CETCs in the state and that carriers must apply to the Federal Communications Commission for certification.

The Department has reviewed your request and notes that it has approved requests for CETC status from wireline-based carriers. However, in the instant case, i-wireless is a mobile virtual network operator. The Department does not regulate or license mobile carrier services’ rates and charges and therefore, it is not subject to the Department’s jurisdiction for the purposes of designating CETC status.

Sincerely,

Kimberley J. Santopietro
Executive Secretary

RE: TracFone Wireless, Inc.

Dear Ms. Mercer:

In your letter dated September 25, 2007, you asked for a statement confirming that the Delaware Public Service Commission ("PSC") lacks the jurisdiction to designate a common carrier as an Eligible Telecommunications Carrier ("ETC") under 47 U.S.C. § 214(e). You noted that such a statement would allow TracFone Wireless, Inc. to seek ETC designation from the Federal Communications Commission ("FCC"), which, if granted, would make TracFone Wireless, Inc. eligible to receive universal service support in Delaware in accordance with 47 U.S.C. § 254.

Under state law, the Delaware PSC does not currently exercise any form of supervisory jurisdiction over wireless commercial mobile radio service ("CMRS") providers, including TracFone Wireless, Inc. 26 Del. C. § 102(2) (excluding "telephone service provided by cellular technology, or by domestic public land mobile radio service" from the definition of "public utility"); 26 Del. C. § 202(c) (providing that the Delaware Commission has "no jurisdiction over the operation of domestic public land mobile radio service provided by cellular technology service or over rates to be charged for such service or over property, property rights, equipment of facilities employed in such service").

In fact, in granting ETC status in Delaware for Cellco Partnership d/b/a Bell Atlantic Mobile, the FCC accepted the Delaware PSC’s confirmation at that time that it did not have jurisdiction under state law to designate CMRS providers as ETCs. Federal-State Joint Board on Universal Service; Cellco Partnership d/b/a Bell Atlantic Mobile Petition for Designation as an Eligible Telecommunications Carrier, Memorandum Opinion and Order, 16 FCC Red. 39 (2000) at paras. 3-4. There have been no changes to state law regarding the PSC’s authority over CMRS providers since the Cellco decision.
For these reasons, I hereby confirm that the Delaware Public Service
Commission does not have jurisdiction under state law to designate CMRS providers,
such as TracFone Wireless, Inc., as an ETC.

Sincerely,

Bruce H. Barcat
Executive Director
IN THE MATTER OF THE APPLICATION OF
VERIZON DELAWARE INC. TO MODIFY THE
LIFELINE SERVICE BY ADDING AN INCOME QUALIFIER TO THE ELIGIBILITY CRITERIA
(FILED JUNE 17, 2005)

ORDER NO. 6736

This 11th day of October, 2005, the Commission determines and
Orders the following:

1. In the jargon of the federal Lifeline/Link-Up program, Delaware is a "federal default State." Delaware has never, by either state law or state regulation, ordained, nor funded, a stand-alone program to provide discounts on basic telephone services charges for low-income subscribers. Consequently, it was not until 1997, when the Federal Communications Commission ("FCC") revamped the federal Lifeline/Link-Up program, that Delaware subscribers first became eligible for participation in the federal Lifeline program. And given that in a "federal default State" only federally-raised monies are used to reimburse eligible carriers for the Lifeline and Link-Up discounts, it is the FCC, and not the state commission, that gets to call the tune about who should be eligible to receive these federally-subsidized price reductions.

2. Since 1997, Verizon Delaware Inc. ("VZ-DB") has been designated as an "eligible telecommunications carrier" and has offered

---

1 See PSC Order No. 4684 (Dec. 16, 1997) (summarizing Delaware history and electing to allow "Tier 2" federal support to eligible Delaware subscribers).
federal Lifeline discounts on the federal list of supported services.² And even though in "default" States, Lifeline is almost an exclusively federal program, VZ-DE has, since 1997, filed at the State level, tariff provisions setting forth its Lifeline offerings.³

3. In 2004, the FCC changed some of the "eligibility" rules describing which subscribers may participate in the federal Lifeline/Link-Up program.⁴ In particular, the 2004 amendments added additional programs to the list of "eligible" programs where participation confers federal default Lifeline/Link-Up eligibility.⁵ The 2004 amendments also introduced an additional eligibility criteria premised on the subscriber’s household income.⁶ Eligible telecommunications carriers, such as VZ-DE, were given one year to implement this new, additional income-based eligibility criteria.⁷

4. To implement these changes prescribed by the FCC, VZ-DE initially filed revisions to the Lifeline and Link-Up portions of its

---

³From December 2000 through December 2003, VZ-DE offered, under its state tariff, an "expanded" Lifeline program for Delaware. The discounts under such program exceeded the Tiers 1 & 2 levels normally available in a default State. VZ-DE offered this expanded program to fulfill a condition imposed by the FCC in approving the Bell Atlantic-OTC merger. See PSC Order No. 6317 (Dec. 9, 2003) (explaining content and cause of this expanded Lifeline offering). Whether Delaware remained a "default State" during this period when VZ-DE subsidized the deeper discounts is an issue that need now be explored or resolved. This "expanded" program ended in December 2003.

⁴In the Matter of Lifeline and Link-Up, Report and Order and Further NPRM, 19 FCC Rcd. 8302 (FCC 2004) ("Lifeline Order").

⁵47 C.F.R. §§ 54.409(b) (Lifeline eligibility criteria in "default" State); 54.415(b) (Link-Up eligibility criteria in "default" State).

⁶47 C.F.R. §§ 54.409(b), 54.410 (Lifeline); 54.415(b), 54.416 (Link-Up).

State tariff. These changes incorporated into the State tariff provisions the expanded list of "eligibility-conferring" programs. At the same time, the Commission Staff began discussions with VZ-DE to determine whether, under the applicable federal default rules, it was appropriate for VZ-DE to continue to include in its State tariff Lifeline provisions language that conditioned Lifeline eligibility on the subscriber foregoing the ability to purchase many optional or vertical services. Eventually, VZ-DE revised its State tariff Lifeline provisions to delete the questioned restrictions. Then in June 2005, VZ-DE filed another Tariff revision to reflect its implementation of the household-income criteria for eligibility for Lifeline and Link-Up discounts. Finally, on September 9, 2005, VZ-DE submitted another set of revised tariff sheets reflecting further textual revisions, as originally suggested by Staff. In part, these final changes sought to make the State tariff’s description of how VZ-DE would administer its Lifeline/Link-Up program to more closely parallel the governing federal default rules.

---

\[9\] That restriction - limiting Lifeline subscribers to a small group of designated vertical services - had been a continual part of VZ-DE’s state-tariffed Lifeline offerings since 1997. In its Lifeline Order, the FCC expressed its belief that "any restriction on the purchase of vertical services may discourage qualified consumers from enrolling and may serve as a barrier to participation in the [Lifeline] program. Lifeline Order at ¶ 53.

\[10\] See PSC Dckt. No. 05-008T (filed April 8, 2005; eff. April 16, 2005).

\[11\] See PSC Dckt. No. 05-016T (filed June 17, 2005; eff. June 22, 2005).

\[12\] See PSC Dckt. No. 05-016T, amended tariff sheets filed on September 9, 2005 but with effective date of June 22, 2005.
5. The Commission enters this Order not so much to “approve” the various Lifeline filings made by VZ-DE but to recount the course of the filings made since the FCC changed its federal Lifeline/Link-Up program in 2004. Indeed, given that Delaware is a “default” State, VZ-DE’s Lifeline/Link-Up offerings are governed more by the federal default rules than by any “approved” State tariff provision. Any State tariff provision that might conflict with a federal default rule would necessarily have to yield. However, the Commission will accept the Lifeline and Link-Up tariff filings lodged by VZ-DE. The Commission believes that VZ-DE’s last submission (in September 2005) sets forth a Lifeline and Link-Up offering that is consistent with the federal default rules. However, the filing and acceptance of the State tariff provisions should not be seen as foreclosing any later challenge that VZ-DE’s program falls short of the federal directives.

Now, therefore, IT IS ORDERED:

1. That, as explained in the body of this Order, the Commission accepts the tariff filings made by Verizon Delaware Inc., to implement its responsibilities to provide federal Lifeline and Link-Up in this “federal default” jurisdiction. In particular, the Commission now accepts the tariff revision filing made September 9, 2005 pertaining to the following leaves in P.S.C.-Del.-No. 1:

   Section 20D, Fourteenth Revised Sheet 1 (Link-Up);
   Section 20D, Fifth Revised Sheet 2 (Link-Up); and
   Section 20E, Eighth Revised Sheet 2 (Lifeline).
2. That the Commission reserves the jurisdiction and authority to enter such further Orders in this matter as may be deemed necessary or proper.

BY ORDER OF THE COMMISSION:

Chair

Vice Chair

Commissioner

Commissioner

Alpharetta, GA 30005

Dear Mr. Steinhart:

Thank you for your July 23, 2010 letter stating i-wireless LLC’s (“i-wireless”) intent to be designated as an eligible telecommunications carrier in the District of Columbia. Please be advised that, pursuant to section 34-2006(b) of the District of Columbia Code, the Public Service Commission of the District of Columbia (“Commission”) does not have jurisdiction over wireless carriers. Thus, the Commission has no authority to designate i-wireless as an eligible telecommunications carrier.

Attached please find a copy of the relevant section of the District of Columbia Code for your information. Should you need anything further, please contact me at 202-626-5140 or rbeverly@psc.dc.gov.

Sincerely,

Richard A. Beverly
General Counsel

Enclosure
§ 34-2006. Exemptions [Formerly § 43-1456]

(a) This chapter shall not apply to cable television services performed pursuant to an existing cable television franchise agreement with the District of Columbia which is in effect on September 9, 1996. To the extent that a cable television company seeks to provide local exchange services within the District of Columbia, such company shall be regulated under the provisions of this chapter for their local exchange services.

(b) Pursuant to the Federal Telecommunications Act of 1996, this chapter shall not apply to licensed or unlicensed wireless services authorized by the Federal Communications Commission operating in the District of Columbia.

(c) This chapter shall not:

1. Apply to the provision, rates, charges, or terms of service of Voice Over Internet Protocol Service or Internet Protocol-enabled Service;

2. Alter the authority of the Commission to enforce the requirements as are otherwise provided for, or allowed by, federal law, including the collection of Telecommunications Relay Service fees and universal service fees;

3. Alter the authority of the Office of Cable Television and Telecommunications with respect to the provision of video services in the District of Columbia; or

4. Alter the Commission's existing authority over the regulation of circuit-switched local exchange services in the District of Columbia.
D.C. Code § 34-2006

Re: Undocketed – Q Link Wireless LLC’s ETC Designation  

Dear Ms. Chow:  

We received your October 18, 2011 letter advising that Q Link Wireless LLC, a commercial mobile radio service provider, wish to seek designation as an ETC in Florida. You also requested an affirmative statement that the Florida Public Service Commission no longer assert jurisdiction to designate commercial mobile radio service providers as eligible telecommunication carriers in Florida.  

This letter acknowledges that the revisions to Chapter 364, Florida Statutes, changed the Commission’s jurisdiction regarding telecommunications companies. I direct your attention to Chapter 364, Florida Statutes, for the proposition that the Federal Communications Commission, rather than this Commission is the appropriate agency to consider Q Link Wireless LLC’s bid for ETC status.  

Sincerely,  

S. Curtis Kiser  
General Counsel  

cc: Beth W. Salak, Director, Division of Regulatory Analysis  
Robert J. Casey, Public Utilities Supervisor, Division of Regulatory Analysis  
Adam J. Teitzman, Attorney Supervisor, Office of the General Counsel  
Ann Cole, Commission Clerk, Office of Commission Clerk
RE: ETC Certification in New Hampshire

The federal Universal Service Fund (USF) was created by the Federal Communications Commission (FCC) to promote the availability of quality services at just and reasonable rates to all consumers including low-income customers and those in high cost areas and to increase nationwide access to advanced services in schools, libraries and rural health care facilities. To qualify for universal service funding a carrier must first be certified as an Eligible Telecommunications Carrier (ETC) by the state public utilities commission or, if the state does not assert this authority, by the FCC. See 47 U.S.C. §214 (e).

The New Hampshire Public Utilities Commission maintains authority to determine whether landline telecommunications carriers qualify as ETCs. Pursuant to New Hampshire RSA 362:6, the Commission has no jurisdiction over mobile radio communications services. Consequently, the state declines jurisdiction over the certification of wireless carriers as ETCs, leaving that responsibility to the FCC.

Sincerely,

F. Anne Ross
General Counsel
New Hampshire Public Utilities Commission
July 28, 2010

TO WHOM IT MAY CONCERN:

Re: i-wireless CMRS Jurisdiction

We have received a letter from i-wireless, LLC (i-wireless), requesting a statement that the New York State Public Service Commission does not exercise jurisdiction over CMRS providers for the purpose of making determinations regarding Eligible Telecommunications Carrier designations under section 214 (e)(6) of 47 U.S.C. In response to this request, please be advised that section 5 (6)(a) of the New York State Public Service Law provides that:

Application of the provisions of this chapter to cellular telephone services is suspended unless the commission, no sooner than one year after the effective date of this subdivision, makes a determination, after notice and hearing, that suspension of the application of provisions of this chapter shall cease to the extend found necessary to protect the public interest.

The New York State Public Service Commission has not made a determination as of this date that regulation should be reinstated under section 5 (6)(a) of the Public Service Law. Consequently, based on the representation by i-wireless that it is a mobile virtual network operator reselling wireless services, i-wireless would not be subject to New York State Public Service Commission jurisdiction for the purpose of making an Eligible Telecommunications Carrier designation.

Very truly yours,

[signature]

Maureen J. McCauley
Assistant Counsel
STATE OF NORTH CAROLINA
UTILITIES COMMISSION
RALEIGH

DOCKET NO. P-100, SUB 133c

BEFORE THE NORTH CAROLINA UTILITIES COMMISSION

In the Matter of
Designation of Carriers Eligible for Universal ) ORDER GRANTING PETITION
Carrier Support

BY THE COMMISSION: On August 22, 2009, North Carolina RBSA Cellular Telephone Company, d/b/a Carolina West (Carolina West), a commercial mobile radio service (CMRS) provider, filed a Petition seeking an affirmative declaratory ruling that the Commission lacks jurisdiction to designate CMRS carrier eligible telecommunications carrier (ETC) status for the purposes of receiving federal universal service support.

In support of its Petition, Carolina West stated that it was a CMRS provider authorized by the Federal Communications Commission (FCC) to provide cellular mobile radio telephone service in North Carolina, and that the FCC had clearly recognized that CMRS carriers such as Carolina West may be designated as ETCs. ETC status is necessary for a provider to be eligible to receive universal service support. Section 214(a)(5) of the Telecommunications Act provides that if a state commission determines that it lacks jurisdiction over a class of carriers, the FCC is charged with making the ETC determination. The FCC has stated that, in order for the FCC to consider requests pursuant to this provision, a carrier must provide an “affirmative statement” from the state commission or court of competent jurisdiction that the state lacks jurisdiction to perform the designation. To date, several state commissions have declined to exercise such jurisdiction.

North Carolina has excluded CMRS form the definition of “public utility.” See, G.S. 62-9(b23). Pursuant to this, the Commission issued its Order Concerning Delegation of Wireless Providers in Docket Nos. P-100, Sub 114 and Sub 124 on August 28, 1995, concluding that the Commission no longer has jurisdiction over cellular services. Accordingly, Carolina West has now requested the Commission to issue an Order stating that it does not have jurisdiction to designate CMRS carriers ETC status for the purposes of receiving federal universal service support.

WHEREUPON, the Commission reaches the following

CONCLUSIONS

After careful consideration, the Commission concludes that it should grant Carolina West's Petition and issue an Order stating that it lacks jurisdiction to designate ETC status
for CMRS carriers. As noted above, in its August 28, 1995, Order in Docket Nos. P-100, Sub 114 and Sub 124, the Commission observed that G.S. 62-6(23)(b), enacted on July 28, 1995, has removed cellular services, radio common carriers, personal communications services, and other services than or in the future constituting a mobile radio communications service from the Commission's jurisdiction. 47 USC 3(41) defines a "state commission" as a body which "has regulatory jurisdiction with respect to the intrastate operation of carriers." Pursuant to 47 USC 214(e)(2), if a state commission determines that it lacks jurisdiction over a class of carriers, the FCC must determine which carriers in that class may be designated as ETCs. Given these circumstances, it follows that the Commission lacks jurisdiction over CMRS services and the appropriate venue for the designation of ETC status for such services is with the FCC. Accord, Order Granting Petition, ALLTEL Communications, Inc., June 24, 2003.

IT IS, THEREFORE, SO ORDERED.

ISSUED BY ORDER OF THE COMMISSION.

This the 29th day of August, 2003.

NORTH CAROLINA UTILITIES COMMISSION

Patricia Swanson, Deputy Clerk
BEFORE THE TENNESSEE REGULATORY AUTHORITY
NASHVILLE, TENNESSEE
April 11, 2003

IN RE:
APPLICATION OF ADVANTAGE CELLULAR SYSTEMS, INC. TO BE DESIGNATED AS AN ELIGIBLE TELECOMMUNICATIONS CARRIER

DOCKET NO.
02-01245

ORDER

This matter came before Chairman Sara Kyle, Director Deborah Taylor Tate and Director Pat Miller of the Tennessee Regulatory Authority (the "Authority"), the voting panel assigned in this docket, at the regularly scheduled Authority Conference held on January 27, 2003, for consideration of the Application of Advantage Cellular Systems, Inc. To Be Designated As An Eligible Telecommunications Carrier ("Application") filed on November 21, 2002.

Background

Advantage Cellular Systems, Inc. ("Advantage") is a commercial mobile radio service provider ("CMRS") seeking designation as an Eligible Telecommunications Carrier ("ETC") by the Authority pursuant to 47 U.S.C. §§ 214 and 254. In its Application, Advantage asserts that it seeks ETC status for the entire study area of Dekalb Telephone Cooperative, Inc., a rural cooperative telephone company. Advantage maintains that it meets all the necessary requirements for ETC status and therefore is eligible to receive universal service support throughout its service area.

The January 27, 2003 Authority Conference

During the regularly scheduled Authority Conference on January 27, 2003, the panel of Directors assigned to this docket deliberated Advantage's Application. Of foremost consideration was the issue of the Authority's jurisdiction. The panel unanimously found that the Authority lacked
jurisdiction over Advantage for ETC designation purposes.¹

This conclusion was implicitly premised on Tenn. Code Ann. § 65-4-104, which provides that:

The Authority has general supervisory and regulatory power, jurisdiction and control over all public utilities and also over their property, property rights, facilities, and franchises, so far as may be necessary for the purpose of carrying out the provisions of this chapter.

For purposes of Tenn. Code Ann. § 65-4-104, the definition of public utilities specifically excludes, with certain exceptions not relevant to this case, “[a]ny individual, partnership, copartnership, association, corporation or joint stock company offering domestic public cellular radio telephone service authorized by the federal communications commission.”

The Authority’s lack of jurisdiction over CMRS providers implicates 47 U.S.C. § 214(e), which addresses the provision of universal service. Where common carriers seeking universal service support are not subject to a state regulatory commission’s jurisdiction, 47 U.S.C. § 214(e)(6) authorizes the Federal Communications Commission (“FCC”) to perform the ETC designation.²

¹ This finding is not inconsistent with the Authority’s decision in In re: Universal Service Generic Contested Case, Docket 97-00888, Interim Order on Phase I of Universal Service, pp. 53-57 (May 20, 1998), in which the Authority required intrastate telecommunications carriers to contribute to the intrastate Universal Service Fund including telecommunications carriers not subject to authority of the TRA. The decision in Docket No. 97-00888 was based primarily on 47 U.S.C. § 254(f) which authorizes states to adopt regulations not inconsistent with the Federal Communications Commission’s rules on Universal Service and specifically requires every telecommunications carrier that provides intrastate telecommunications services to contribute to the preservation and advancement of universal service in that state. The Interim Order was issued prior to the effective date of 47 U.S.C. § 214(e)(6).

² 47 U.S.C. §214(c)(6) states:

(6) Common carriers not subject to state commission jurisdiction

In the case of a common carrier providing telephone exchange service and exchange access that is not subject to the jurisdiction of a State commission, the Commission shall upon request designate such a common carrier that meets the requirements of paragraph (1) as an eligible telecommunications carrier for a service area designated by the Commission consistent with applicable Federal and State law. Upon request and consistent with the public interest, convenience and necessity, the Commission may, with respect to an area served by a rural telephone company, and shall, in the case of all other areas, designate more than one common carrier as an eligible telecommunications carrier for a service area designated under this paragraph, so long as each additional requesting carrier meets the requirements of paragraph (1). Before designating an additional eligible telecommunications carrier for an area served by a rural telephone company, the Commission shall find that the designation is in the public interest.
As a matter of "state-federal comity," the FCC requires that carriers seeking ETC designation "first consult with the state commission to give the state commission an opportunity to interpret state law." Most carriers that are not subject to a state regulatory commission’s jurisdiction seeking ETC designation must provide the FCC "with an affirmative statement from a court of competent jurisdiction or the state commission that it lacks jurisdiction to perform the designation."

The panel noted that the FCC is the appropriate forum for Advantage to pursue ETC status pursuant to 47 U.S.C. § 214(e)(6). This Order shall serve as the above mentioned affirmative statement required by the FCC.

IT IS THEREFORE ORDERED THAT:

The Application of Advantage Cellular Systems, Inc. To Be Designated As An Eligible Telecommunications Carrier is dismissed for lack of subject matter jurisdiction.

Sara Kyle, Chairman

Deborah Taylor Tate, Director

Pat Miller, Director

---

4 See id. (The "affirmative statement of the state commission may consist of any duly authorized letter, comment, or state commission order indicating that it lacks jurisdiction to perform designations over a particular carrier.")
