

I received a notice that the FCC is looking for public input as to whether you should treat cases of nudity the same as profanity, etc. Treat it all seriously!!!! I honestly did not know that the FCC was still in force. TV is in shambles, regarding moral decency and family values! I have a lot to say but the FCC needs to lay out what is acceptable...no foul language, grabbing crotches and breasts or bearing such, no put downs of people groups, including religious people, shows rewarding bad behavior..such as stealing OK, lying OK, sex on stage, pole dancing bar scenes, etc. If we don't attend those places, we certainly don't want to see them in our living room during prime time, or any other time on public TV! Parents should be honored, kids who are respectful and together should be the heroes, DO NOT ALLOW GOD's NAME TO BE USED IRREVERENTLY EVER! ALcohol commercials should be banned if cigarette commercials are banned. You should keep heavy fines on TV stations that promote or allow bad things to go on...The Supreme Court throwing out cases is another story. They should be held accountable for their decisions by someone who cares about the condition of our country! We're behind you all the way as you clean up the airwaves!!! Honestly!!!!
