

I oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or "fleeting."

Relaxing those policies already in place (policies which prevent nudity and indecent language, especially during times when children are likely to be watching or listening) , would not benefit our children at all. It only serves the interests of some adults and the media production houses, in this county. There is not more to be gained by increasing the chances of our kids to be directly exposed to nudity and indecent language in their homes....a place of safety.

Please reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations.
