

Hi, thank you for the work you do to protect our families. I strongly ask that you do NOT change the current guidelines of nudity and the F word on tv and radio. We do not want our children exposed to that and see no profitable reason for our kids or culture to allow this. We do not want to become the Rome of old where there were no moral guidelines. Please for the sake of our country do not change the guidelines as they are now. Stand for what is right. Too many people have been hurt through pornogrpahy and it all starts with just a look.

Sincerely,

Kirk F. Wasson
