

With the denigration of societal values all around us, and as a faithful Christian who believes that we are accountable to God for what we do with our lives, I would ask that you keep standards in place that ban nudity and profanity. The last thing our country needs right now is fewer values and more children being surrounded by things that are neither virtuous or praiseworthy. In the preamble of the constitution, it states that government's job is to form a more perfect union and promote the general welfare. The more a nation welcomes non virtuous principles and seeks to fulfill pleasures the less stable and fulfilling our lives and families will be. Please, stand up for what you know to be right.
